Task 2 of 4 | User Story

Create Analysis with Prompt

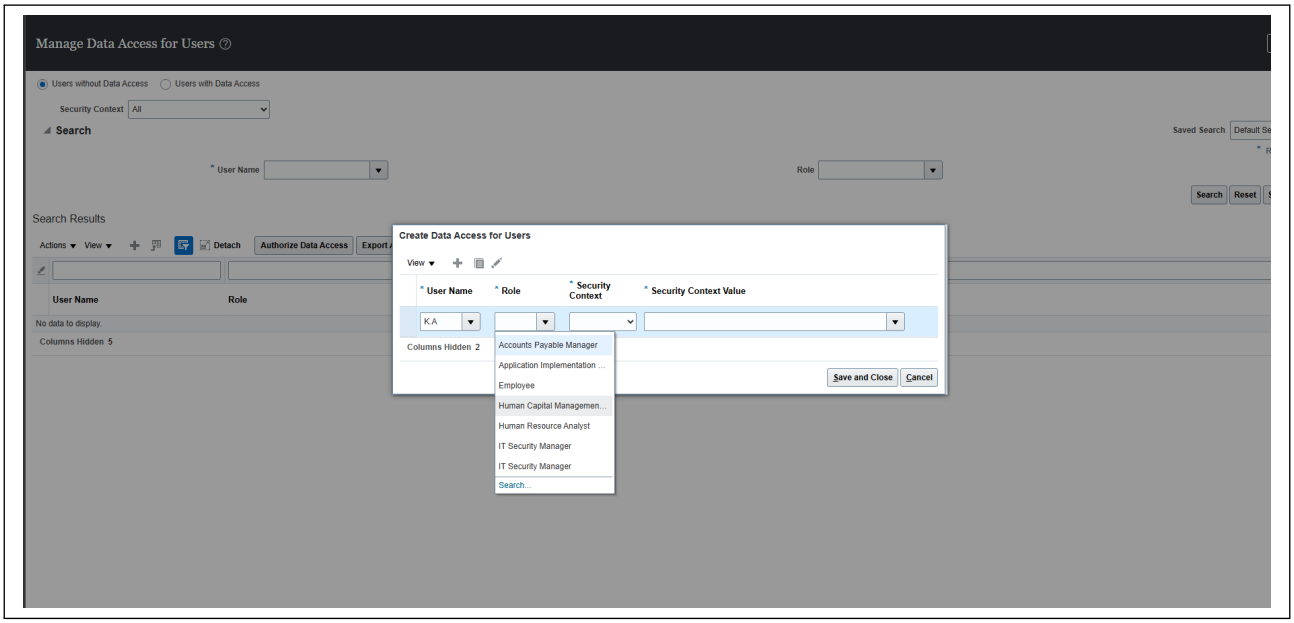

Goal: Create an analysis on **Business Units** with a **Business Unit Name** drop-down (prompt) so the user picks a BU and sees only its data.

1. Before you start - roles and Data Access

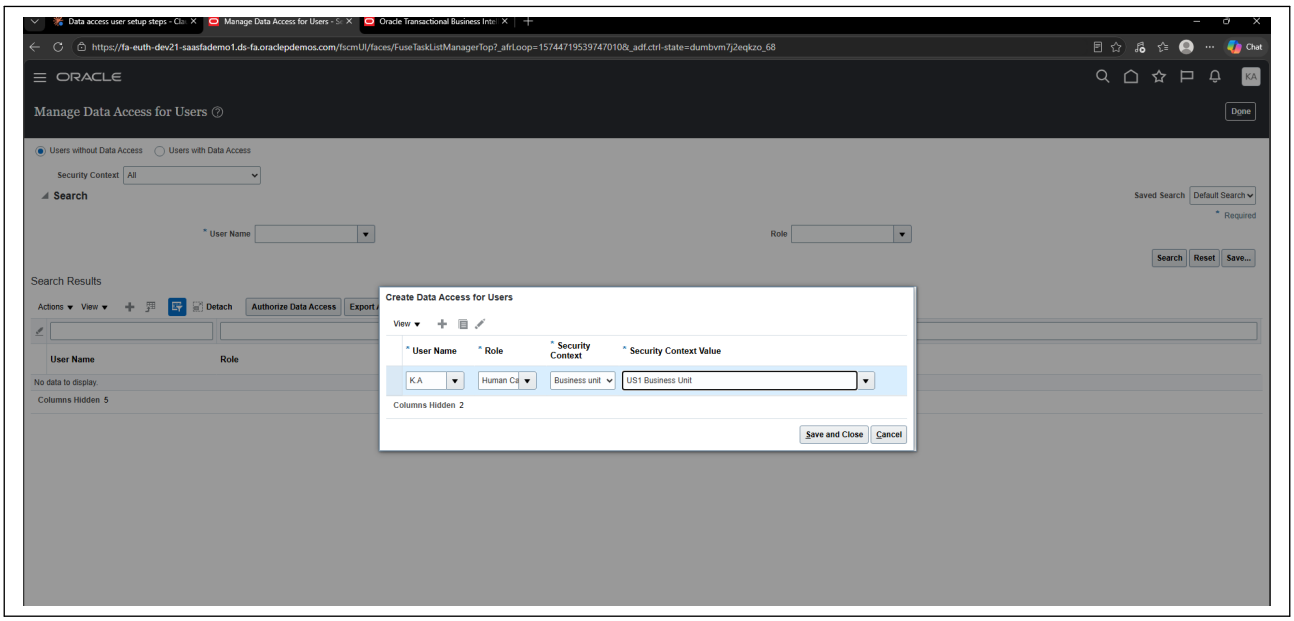

1. Navigator > **Tools** > **Security Console** > **Users** > open your user (K A) and check the roles: Accounts Payable Manager, Employee, Human Capital Management Application Administrator, Human Resource Analyst, IT Security Manager.
2. Open the task **Manage Data Access for Users** > click **+** (Create).
3. In **Create Data Access for Users**: **User Name** = K.A, **Role** = Human Capital Management Application Administrator, **Security Context** = **Business unit**, **Security Context Value** = **US1 Business Unit**.
4. Click **Save and Close**. Repeat for the roles **Human Resource Analyst**, **Employee** and **Accounts Payable Manager**.

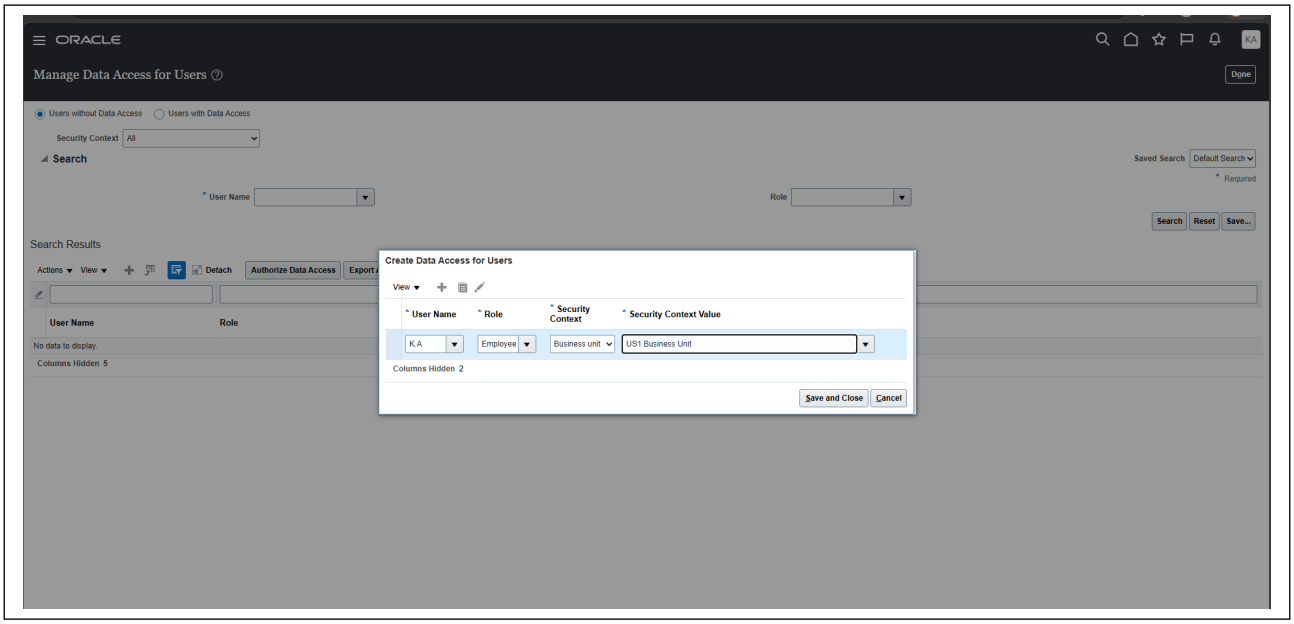

User Account Details: K A - assigned roles

Create Data Access for Users - choose the Role

Human Capital Management role - Business unit - US1 Business Unit

Employee role - Business unit - US1 Business Unit

2. Log in and open the Catalog

5. Open the **Oracle Fusion** link. On the **Oracle Cloud Sign in** page enter **your username** (K.A) and **password** > **Next**.

6. Click the **Navigator** (three lines, top left) > **Tools** > **Reports and Analytics**.

7. Click **Browse Catalog** (top right). The **Oracle Transactional Business Intelligence** Catalog opens.

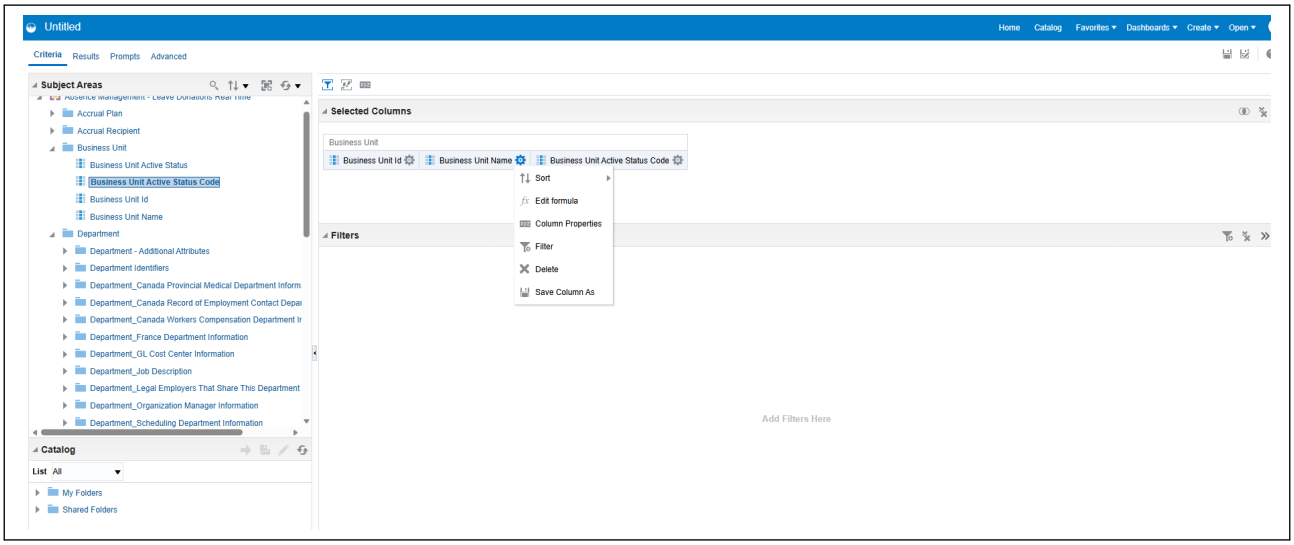

8. In **Folders** open **My Folders** > **TASK**. Save all your work in this folder.

3. Create the Analysis

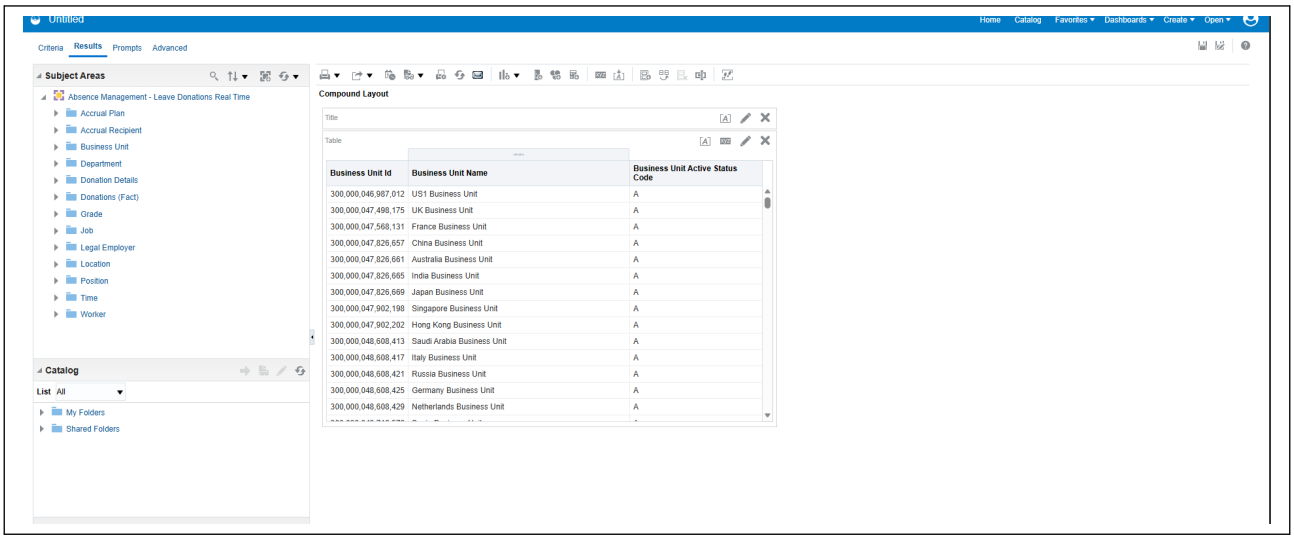

9. Catalog > **Create** > **Analysis** > subject area **Absence Management - Leave Donations Real Time**.

10. Expand **Business Unit** and add: **Business Unit Id**, **Business Unit Name**, **Business Unit Active Status Code**.

11. Click **Results** - you see all business units (US1, UK, France, China ...).

Criteria: Business Unit columns (gear menu on Business Unit Name)

Results: list of all Business Units

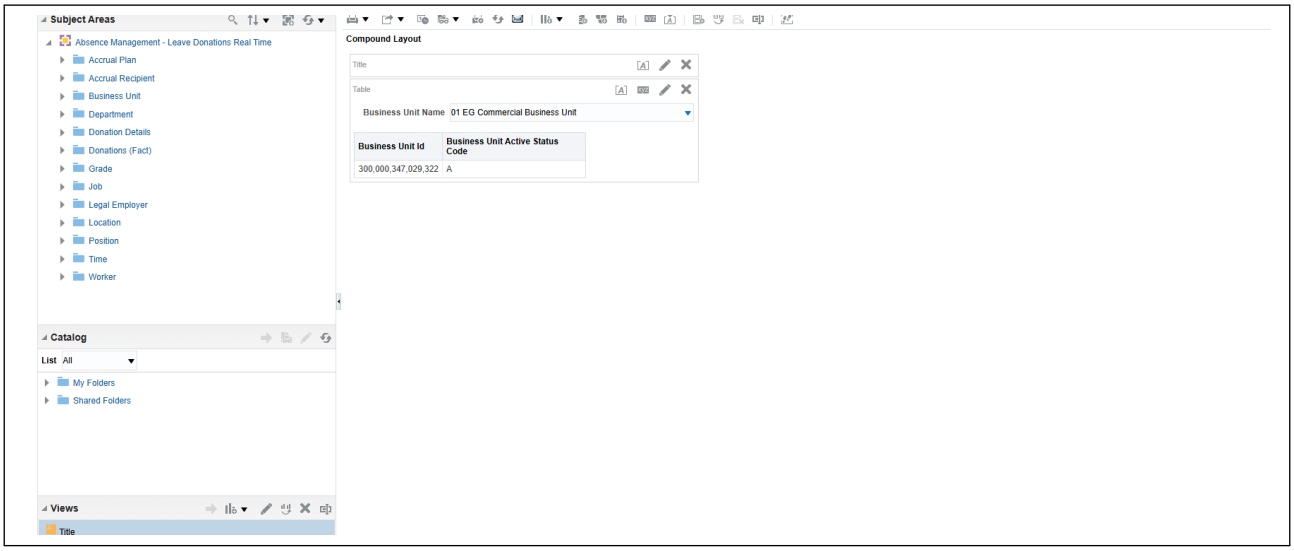

4. Add the prompt (drop-down) on Business Unit Name

12. On the **Results** tab click the **pencil (Edit View)** on the **Table** view.

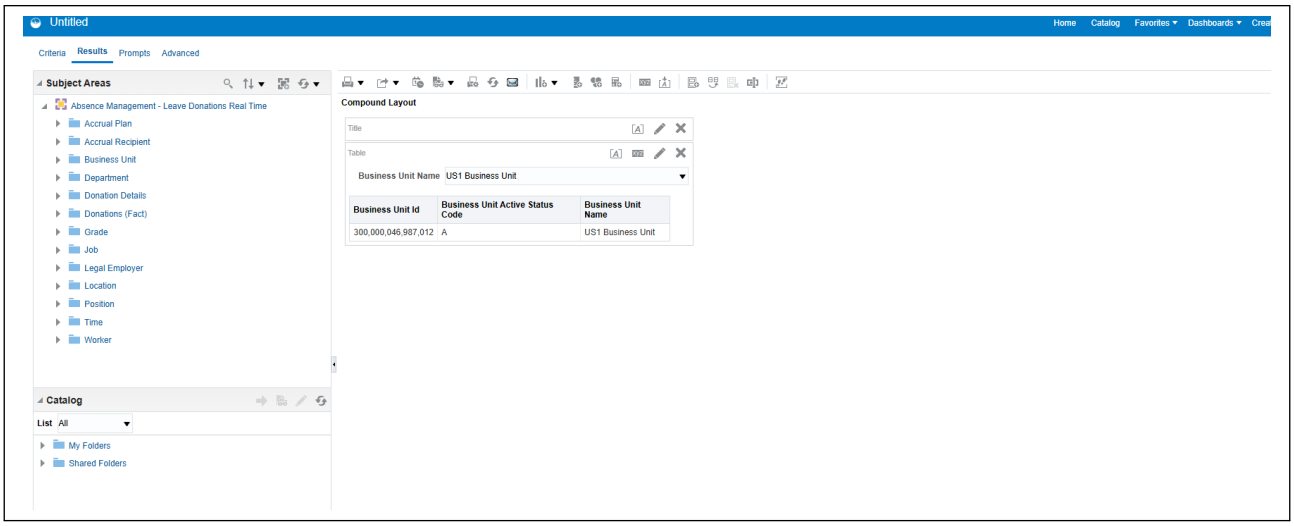

13. In the **Layout** pane drag **Business Unit Name** up into the **Table Prompts** area > **Done**.

14. A **Business Unit Name** drop-down now appears above the table. Choose a value (e.g. **US1 Business Unit**) - only that BU is shown.

15. Other way: **Prompts** tab > **+** > **Column Prompt** > Business Unit Name, plus a Criteria filter with operator **is prompted**.

Prompt drop-down: 01 EG Commercial Business Unit

Prompt drop-down: US1 Business Unit

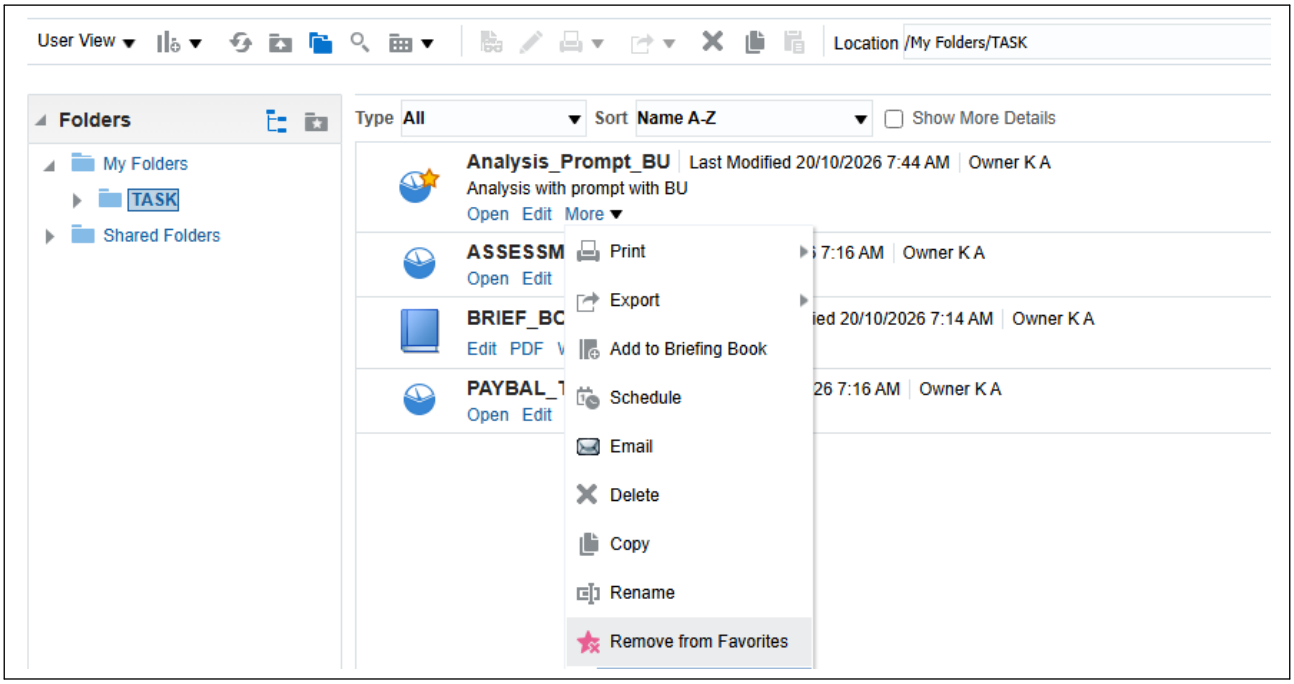

5. Save and add to Favorites

16. Click **Save** > My Folders > **TASK** > Name **Analysis_Prompt_BU**, Description **Analysis with prompt with BU** > **OK**.

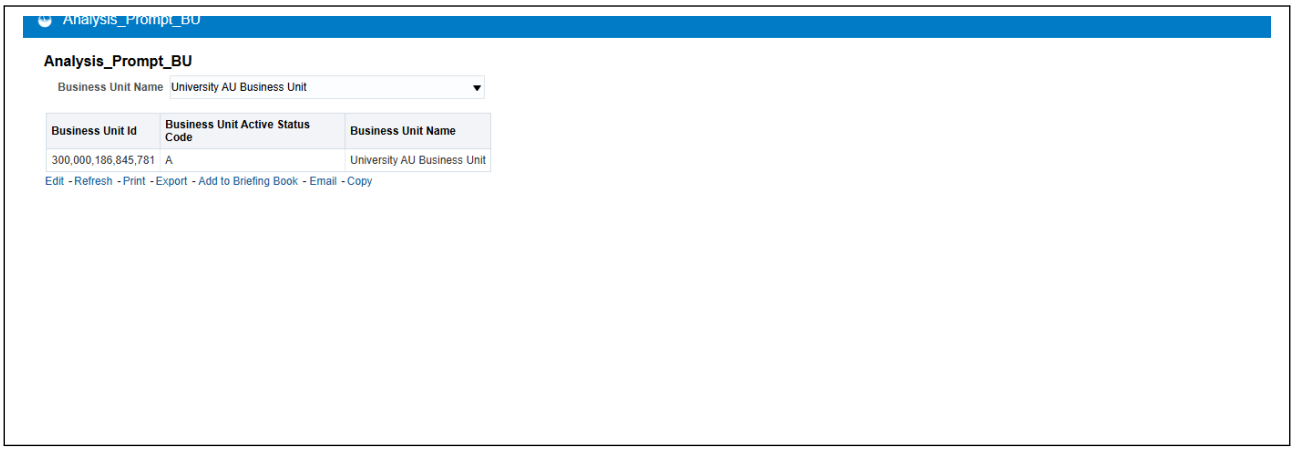

17. In the Catalog click **More** under it > **Add to Favorites** (a star appears on the icon).

18. Test: click **Open**, change the drop-down (e.g. University AU Business Unit) and confirm the row changes.

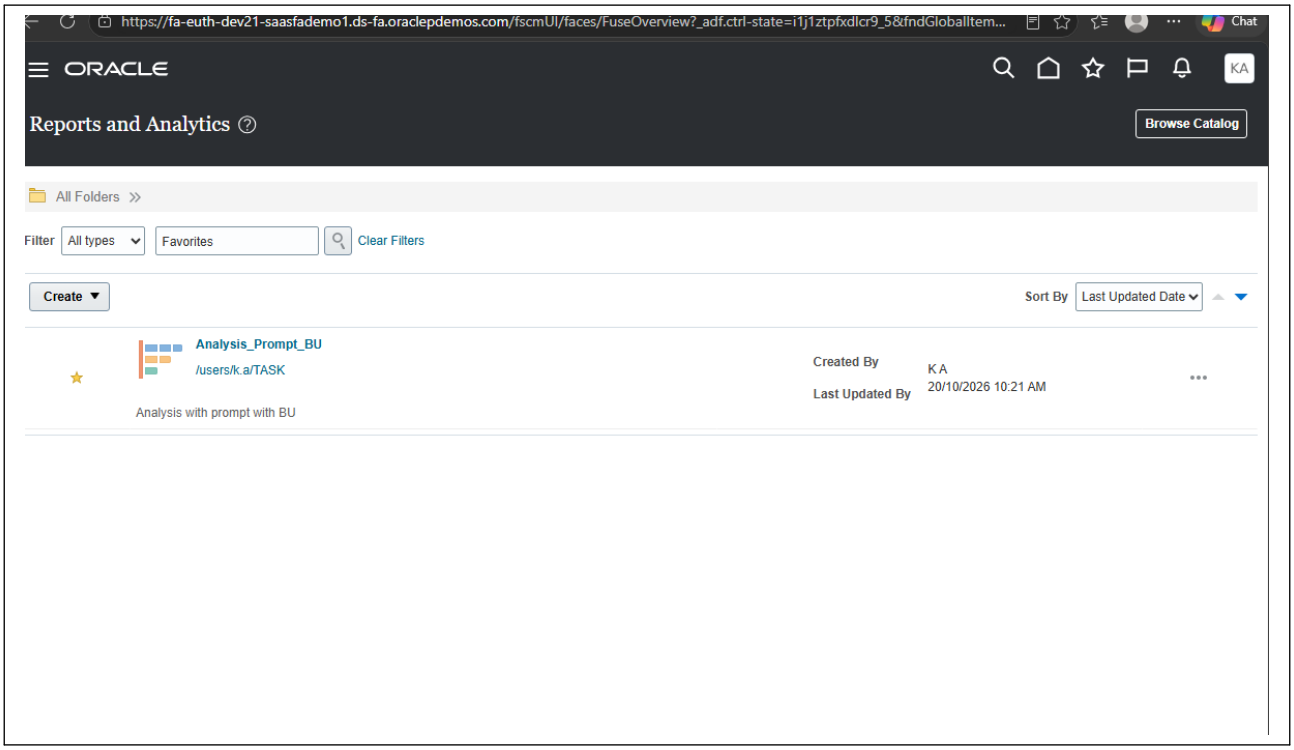

19. In Reports and Analytics you can filter by **Favorites** to find it quickly.

More menu (Add to / Remove from Favorites)

Open: Analysis_Prompt_BU with University AU Business Unit

Reports and Analytics - Filter = Favorites

6. Security - give permission (Owner) to another user

20. In the Catalog (My Folders > TASK) click **More** under your object > **Permissions** (or select it and click **Permissions** in the Tasks pane). You (K A) have **Full Control** and the **Owner** radio button.

21. Click the **+** icon. The **Add Application Roles and Users** window opens.

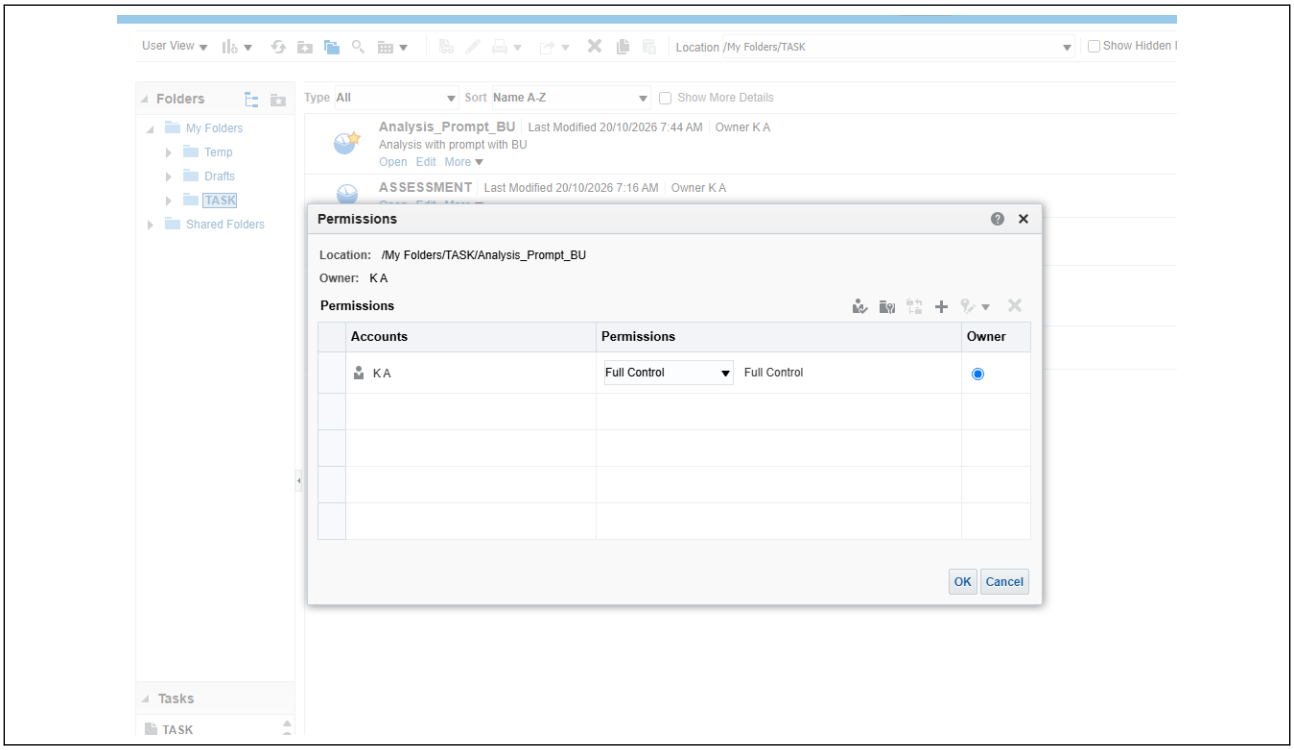

22. Change **List** from *Application Roles* to **Users**, type the user name in **Name** and click **Search**.

23. Select the user in **Available Members** and click **>** to move them to **Selected Members**.

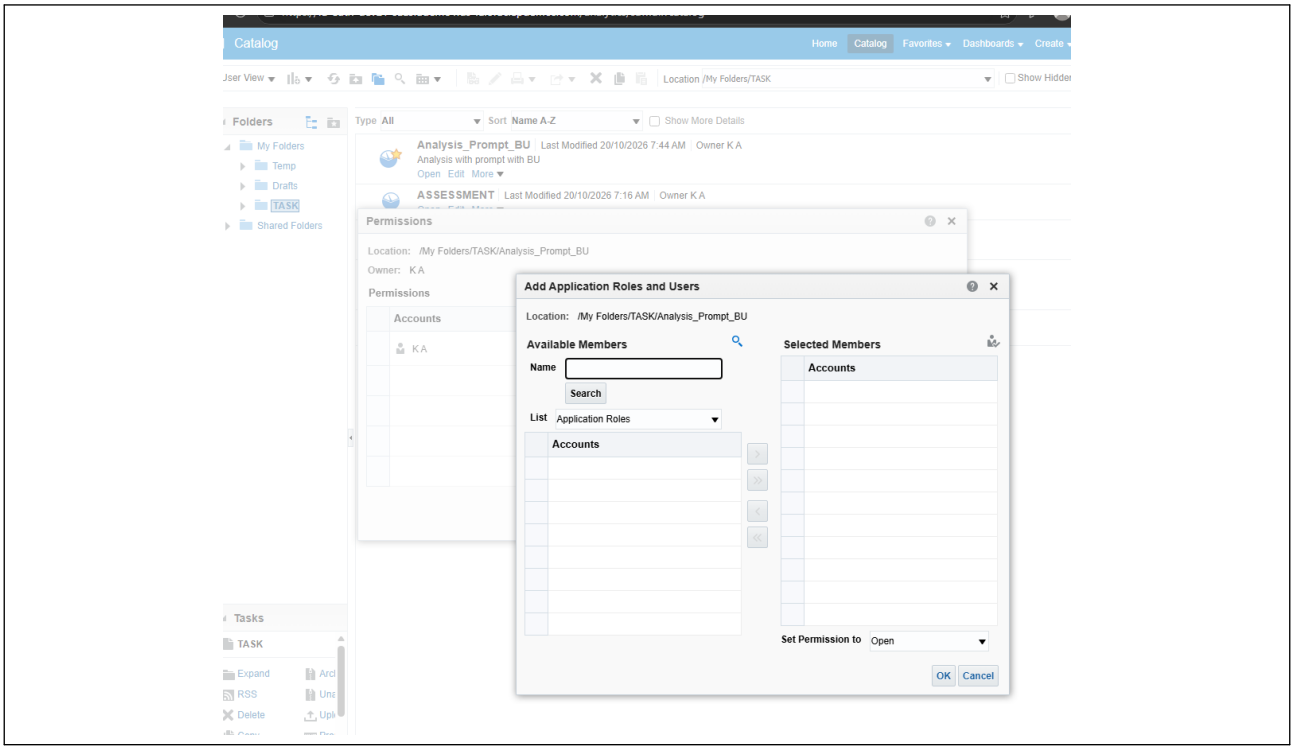

24. In **Set Permission to** choose **Full Control**, **Modify**, **Open**, **No Access** or **Custom** > **OK**.

25. Back in Permissions, to make that user the **Owner** select the **Owner** radio button on their row > **OK**.

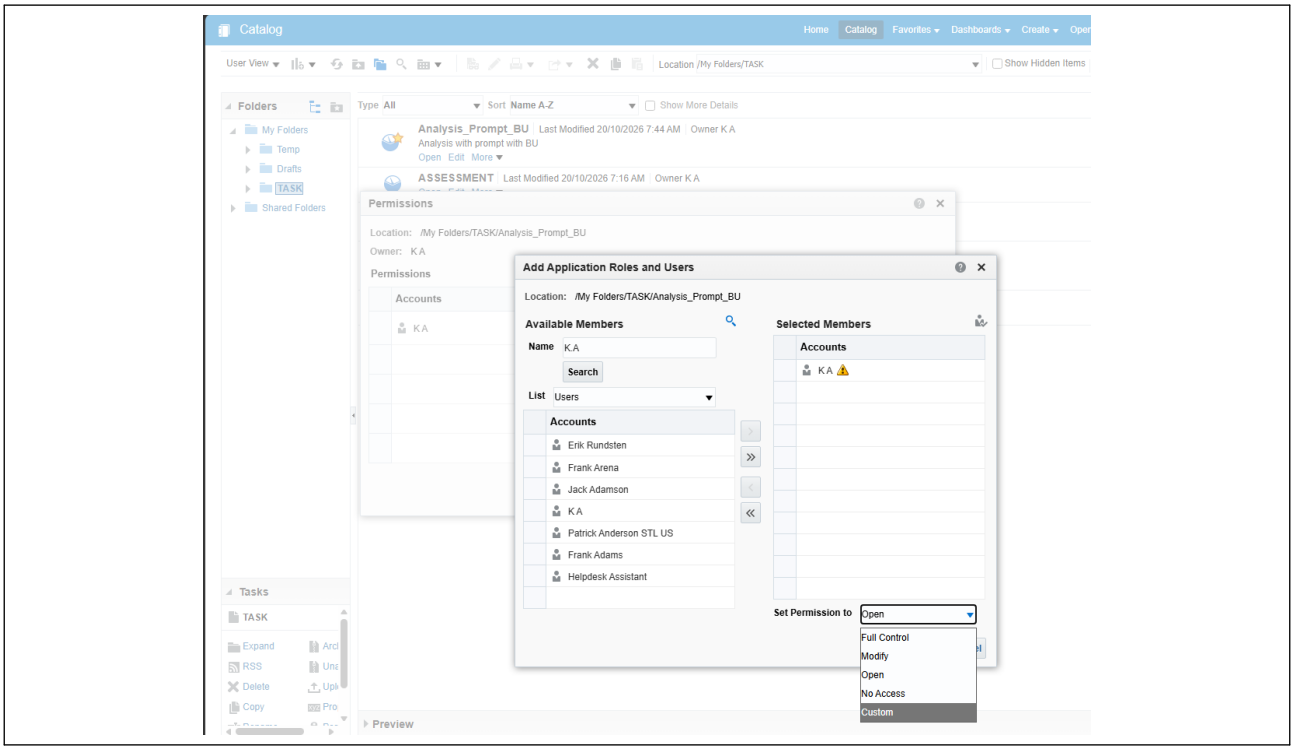

26. Do this for each object type: **Analysis**, **Data Model**, **Report** and **Dashboard**.

Permissions window - K A is Owner with Full Control

Add Application Roles and Users - List = Application Roles by default

List = Users, Search, move the user to Selected Members, choose Set Permission to

Expected result: Analysis **Analysis_Prompt_BU** (in Favorites) with a Business Unit Name drop-down filtering the table.

Tips: • If the analysis shows no rows, check the Data Access step (section 1).
• This analysis is the source for the Data Model in Task 3.
